Auditory Perception

Name \_\_\_\_\_

The purpose of this document is to inform subjects who have been invited to take part in this study of its nature and of any known risks.

This study is sponsored by the National Sciences and Engineering Research Council of Canada, and is being run under the supervision of Dr. Mark Schmuckler of the Department of Psychology, University of Toronto Scarborough.

The purpose of this study is to learn about adults' perceptions of short auditory passages. During this study, you will hear short auditory or musical passages, and then rate each based on a particular aspect of the sequences. The testing will last approximately 60 minutes, and will be conducted by research assistants of Dr. Schmuckler.

The information collected in this study will be subjected to strict standards of professional confidentiality. Withdrawal from the study may be accomplished at any time and it will not influence any future interaction with the Department of Psychology at the University of Toronto Scarborough.

I have read, and understood, the description of the study. I have been given the opportunity to ask any questions which I may have. By signing this form I agree that I will participate, based on reading and understanding this form. If I have any questions, I may ask the investigator.
